SUMMARY

Currently, I am a 4th-semester System Information student at Alma Ata University, with a keen interest in systems analysis, front-end development, UI/UX design, illustration design, and project management. Throughout my college journey, I have actively participated in various projects aligned with my field of study. I possess strong analytical skills, creativity, and adaptability. I thoroughly enjoy learning new concepts and seeking out new experiences to broaden my horizons. As a result, I am dedicated to continuously enhancing my portfolio and expanding my knowledge and expertise.
